FACTUAL BACKGROUND

FASLODEX[®] (fulvestrant) intramuscular injection

24. FASLODEX[®] (fulvestrant) intramuscular injection is an estrogen receptor antagonist approved by the FDA for the treatment of: (a) hormone receptor positive metastatic breast cancer in postmenopausal women with disease progression following antiestrogen therapy; and (b) hormone receptor positive, HER2-negative advanced or metastatic breast cancer in combination with palbociclib in women with disease progression following endocrine therapy.

25. FDA regulatory exclusivity for the treatment of hormone receptor positive, HER2-negative advanced or metastatic breast cancer in combination with palbociclib in women with disease progression following endocrine therapy will expire on February 19, 2019.

26. AstraZeneca UK Limited is the holder of approved New Drug Application ("NDA") No. 21-344 for FASLODEX[®] (fulvestrant) intramuscular injection, in 50 mg/mL dosage forms. AstraZeneca Pharmaceuticals LP is the authorized agent for matters related to NDA No. 21-344 in the United States.

27. The use of FASLODEX[®] (fulvestrant) intramuscular injection is covered by one or more Claims of the '122, '160, '680, and '139 Patents.

28. The '122, '160, '680, and '139 Patents have been listed for NDA No. 21-344 in the FDA's publication, *Approved Drug Products with Therapeutic Equivalence Evaluations*, which is referred to as the "Orange Book."

29. AstraZeneca Pharmaceuticals LP sells and distributes FASLODEX[®] (fulvestrant) intramuscular injection in the United States pursuant to NDA No. 21-344.

DEFENDANTS' ANDA

30. By Notice Letter dated May 30, 2018, Defendants notified AstraZeneca that Defendants' ANDA No. 211730 ("Defendants' ANDA") was submitted to the FDA and that Defendants are seeking approval to engage in the commercial manufacture, use and sale of the Proposed ANDA Product prior to the expiration of the '122, '160, '680, and '139 Patents, and included within ANDA No. 211730 a certification pursuant to 21 U.S.C. § 355(j)(2)(b)(iv)(II) ("Paragraph IV Certification") that the '122, '160, '680, and '139 Patents are invalid and/or will not be infringed by the manufacture, use, importation, sale or offer for sale of the Proposed ANDA Product.

31. Defendants were aware of the Patents-in-Suit when ANDA No. 211730 was filed with a Paragraph IV Certification.

32. On information and belief, Defendants' ANDA No. 211730 refers to and relies upon AstraZeneca's FASLODEX[®] (fulvestrant) intramuscular injection NDA and contains data that, according to Defendants, demonstrate the bioequivalence of the Proposed ANDA Product and FASLODEX[®] (fulvestrant) intramuscular injection.

33. On information and belief, the Proposed ANDA Product label will have instructions for use that substantially copy the instructions for FASLODEX[®] (fulvestrant) intramuscular injection, including instructions for administering the Proposed ANDA Product by intramuscular injection to treat hormone dependent breast cancer. The instructions accompanying the Proposed ANDA Product will induce others to use and/or contribute to others' use of the Proposed ANDA Product in the manner set forth in the instructions.

COUNT I: INFRINGEMENT OF U.S. PATENT NO. 6,774,122

34. Plaintiffs hereby reallege and incorporate by reference the allegations of paragraphs 1–33 of this Complaint.

35. The use of the Proposed ANDA Product is covered by one or more Claims of the '122 Patent.

36. Defendants' submission of ANDA No. No. 211730 under 21 U.S.C. § 355(j) for the purpose of obtaining approval to engage in the commercial manufacture, use, importation, sale and/or offer for sale of the Proposed ANDA Product before the expiration of the '122 Patent constitutes infringement of one or more Claims of the '122 Patent under 35 U.S.C. § 271(e)(2).

37. On information and belief, Defendants plan to, intend to, and will engage in the commercial manufacture, use, importation, sale and/or offer for sale of the Proposed ANDA Product immediately upon approval of ANDA No. No. 211730 and will direct physicians and patients on the use of the Proposed ANDA Product through product labeling.

38. The Proposed ANDA Product, when offered for sale, sold, and/or imported, and when used as directed, will be used in a manner that would directly infringe at least one or more Claims of the '122 Patent under 35 U.S.C. § 271(a).

40. On information and belief, Defendants had knowledge of the '122 Patent when they submitted ANDA No. No. 211730 to the FDA and Defendants know or should have known that they will aid and abet another's direct infringement of at least one of the Claims of the '122

Patent.

41. The Notice Letter lacks any legitimate legal or factual basis for non-infringement of any Claims of the '122 Patent.

42. Defendants had knowledge of the '122 Patent and are knowingly and willfully infringing the '122 Patent.

43. Plaintiffs will be substantially and irreparably harmed by the infringing activities described above unless those activities are precluded by this Court. Plaintiffs have no adequate remedy at law.

44. On information and belief, Defendants lacked a good faith basis for alleging invalidity and/or non-infringement of the '122 Patent when they filed their Paragraph IV Certification. Accordingly, Defendants' Paragraph IV Certification was wholly unjustified, and this case is exceptional under 35 U.S.C. § 285.
